

The Leaf

January 2017

OLCA Awards Ceremony

We are very happy to announce that we took home 4 awards at the 2016 OLCA Awards Ceremony. Our crews swept the residential and commercial construction divisions as well as winning the residential maintenance award. OLCA (Oregon Landscape Contractors Association) is a professional organization of landscapers and associated businesses that offers continuing education, training, networking and industry certifications. Scott, a member since 2006 served as the organizations State President in 2014. Jeremy, involved since 2013 will serve as the Portland Regional President in 2017.

Drainage

With all the rain we get here our yards can look more like a lake than a lawn. Drainage is very important for your lawn, landscaping and home. Standing water can lead to damaged foundations, unhealthy plants and a muddy, unusable lawn. For this reason we make drainage a priority in our design plan. We have experience installing all types of drainage systems including French drains, rain gardens and dry wells. We determine which option is best by locating where your drainage problems are, determining the root cause and installing the solution that best suits your needs.

Cleanup/Winter Pruning

Let us help with your clean-ups and pruning! Has winter got your yard looking not so grand? We can help! Call us for a full yard cleanup. We can remove weeding, leaf removal and pruning from your to-do list.
